

Purpose:

The purpose of this feature is to display all access control punches on the daily browser.

Environment:

TK-SQL, TK2000

Required Program Files:

Tk2000 Environment:

Daybrw.exe April 20, 2005 and later.

Mes40 April 14, 2005 and later

TKSQL Environment:

DayBrwSql.dll April 14, 2005 and later.

Mes40 April 14, 2005 and later

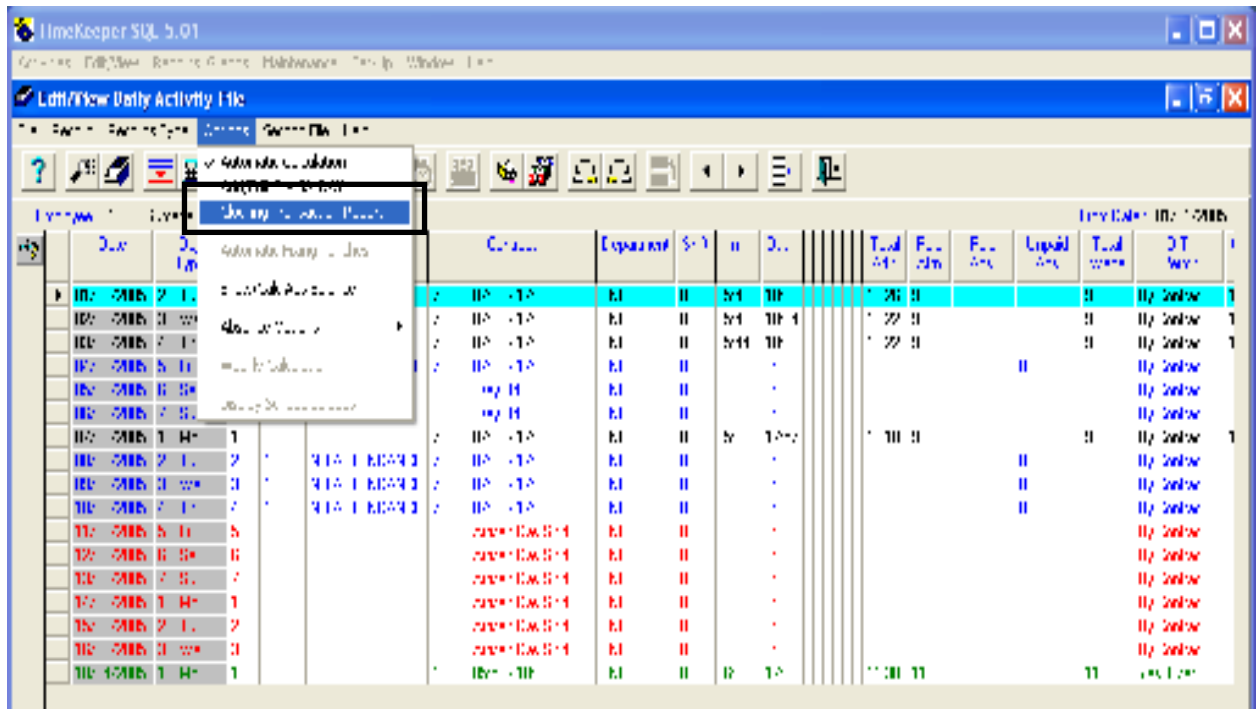

Setup Steps:

1. Copy daybrw.exe\DayBrwSql.dll to Timekeeper programs folder.
2. Update Mes40.

New option Add to Daily browser "**Clocking Transaction Report**" by chooses this option we will be able to view all the punches of the employee, including **Access Control**.

Example:

By selecting the option "Clocking Transaction Report" from Option Menu in Daily Browser.

Open the next screen:

In this screen we can see all the employee punches (Time & Attendance and Access Control).

Clocking Transaction Report

Employee: 1980 Gauride Date: 01/02/2005
